

From Generic Intelligence to Personalized AI

A Tutorial on Foundations of LLM Personalization

DATE

Sunday, October 11, 2026

TIME

14:00 - 17:00

ROOM

5A

FORMAT

Half-day · Lecture

ABOUT

Large language models are moving into phones, wearables, vehicles, homes and public environments, where useful personalization must respond to people, places, routines and changing intent — not only a static profile. This tutorial connects personalization methods with cloud-edge-device systems: what stays close to the person, what can be coordinated at the edge, and when cloud intelligence is worth the latency and disclosure.

When should a system adapt — and when should it step back?

SCHEDULE · SUN, OCT 11

14:00 - 15:30 ● Tutorial Session I

15:30 - 16:00 ○ Coffee Break

16:00 - 17:00 ● Tutorial Session II

PROGRAM

I	Part I - Introduction Presenter: Ruijie Wang	20 min
II	Part II - Personalized Prompting Presenter: Ruijie Wang	30 min
III	Part III - Personalized Adaptation Presenter: Qingkai Zeng	40 min
B	Coffee Break	30 min
IV	Part IV - Personalized Alignment Presenter: Xin Hui	20 min
V	Part V - Cloud-Edge-Device Collaboration Presenter: Xin Hui	20 min
VI	Part VI - Summary & Looking Forward Presenter: Ruijie Wang	10 min
Q	Q & A All speakers	10 min

ORGANIZERS, INSTRUCTORS & CHAIRS

Ruijie Wang
Beihang University

Qingkai Zeng
Nankai University

Xin Hui
Xi'an Jiaotong University

Xuefei Wang
Beihang University

Yuhan Wang
Beihang University

Li Sun
Beijing Univ. of Posts and Telecom.

Ge Wang
Xi'an Jiaotong University

Shengzhong Liu
Shanghai Jiao Tong University

Jizhong Zhao
Xi'an Jiaotong University

Jianxin Li
Beihang University

Philip S. Yu
University of Illinois Chicago
